

# Robots *renew*

## Description

### Robots *renew*

We are offering a wide range of *renew* robotic systems from the leading manufacturers like ABB, Fanuc and KUKA in all reaches and classes of ultimate loadings.

Before delivery, every robot system runs through an intensive refurbishment / check with strict quality criterias in our own factory.

This test cycle ends with several days lasting testrun. A team of experienced robot system technicians is supervising this process from the first until the last minute.

Krüger Industrieautomation possess a spare part storage in its entirety. Extra equipment like base plates, robot system platforms or controlling technical interfaces can be ordered optionally. Another possibility is to order a warranty on components.

### Technical Data:

Reach:	500 mm up to 3500 mm
Capacitance of handling:	1 kg up to 500 kg
Quantity of axles:	4 up to 6
Type of mounting:	Floor, ceiling, wall (depends on robot system type)
Protection class:	IP54/standard, IP67/foundry plus
Extra equipment:	Base plates, robot system platforms, interfaces, media package and more and more

All data provided is subject to alteration without notice.
